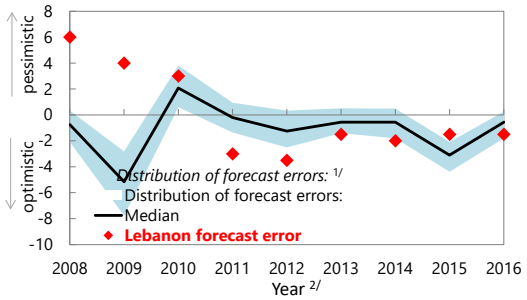

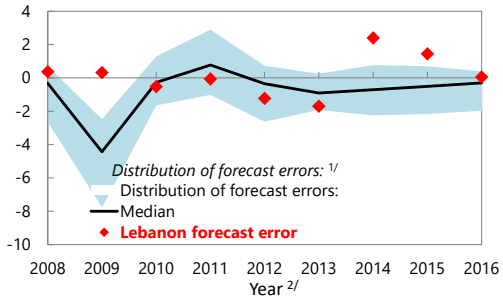

Figure 2. Lebanon: Public DSA—Realism of Baseline Assumptions

Forecast Track Record, versus surveillance countries

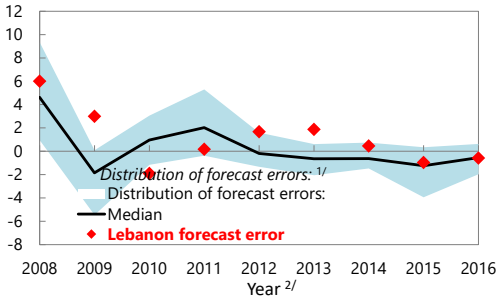

Real GDP Growth
(in percent, actual-projection)
Lebanon median forecast error, 2008-2016: -1.50
Has a percentile rank of: 17%

Primary Balance
(in percent of GDP, actual-projection)
Lebanon median forecast error, 2008-2016: 0.06
Has a percentile rank of: 82%

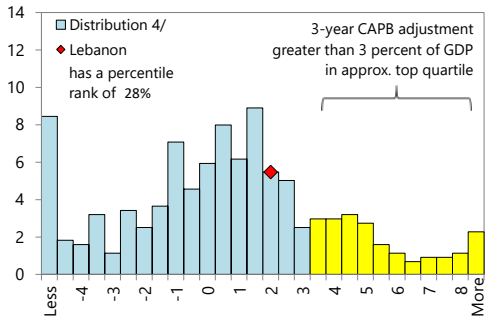

Inflation (Deflator)
(in percent, actual-projection)
Lebanon median forecast error, 2008-2016: 0.46
Has a percentile rank of: 70%

Real GDP growth
(in percent)

Source : IMF Staff.
1/ Plotted distribution includes surveillance countries, percentile rank refers to all countries.
2/ Projections made in the spring WEO vintage of the preceding year.
3/ Not applicable for Lebanon, as it meets neither the positive output gap criterion nor the private credit growth criterion.
4/ Data cover annual obervations from 1990 to 2011 for advanced and emerging economies with debt greater than 60 percent of GDP. Percent of sample on vertical axis.

Source: IMF staff.

1/ Public sector is defined as central government.

2/ Based on available data.

3/ EMBIG.

4/ Defined as interest payments divided by debt stock (excluding guarantees) at the end of previous year.

5/ Derived as [(r - π(1+g) - g + ae(1+r)]/(1+g+π+gπ)) times previous period debt ratio, with r = interest rate; π = growth rate of GDP deflator; g = real GDP growth rate; a = share of foreign-currency denominated debt; and e = nominal exchange rate depreciation (measured by increase in local currency value of U.S. dollar).

6/ The real interest rate contribution is derived from the numerator in footnote 5 as r - π (1+g) and the real growth contribution as -g.

7/ The exchange rate contribution is derived from the numerator in footnote 5 as ae(1+r).

8/ Includes asset changes and interest revenues (if any). For projections, includes exchange rate changes during the projection period.

9/ Assumes that key variables (real GDP growth, real interest rate, and other identified debt-creating flows) remain at the level of the last projection year.
