Sources: Country authorities; and staff estimates and projections.

1/ Refers to non-financial public sector gross debt. From 2016, reflects additional debt contracted with PetroCaribe but not previously recorded (EC$ 112 million or 5.4 percent of GDP in 2016).

2/ Gross financing need is defined as the primary deficit plus debt service plus the stock of short-term debt at the end of the last period.

3/ Revenues excluding grants.

4/ Debt service is defined as the sum of interest and amortization of medium and long-term debt.

5/ Historical averages and standard deviations are generally derived over the past 10 years, subject to data availability.
